## HUVADHOO (Suvadiva)

In the high season, arrival at Kadeddhoo (Huvadhoon) airport with domestic flight from Male, then week-long stay at Suvadiva, the second largest atoll in the world (by surface area). Internal crossing from the west to the east coast of about 3 hours, moving among the various passes – which are all very close to each other – and enjoying the fascinating seascapes of intact coral and large schools of pelagic fish which abound in this area. As well as diving, snorkelling also offers an exciting experience to be in contact with nature, which will provide a thrilling display from the first to the last day of holiday.

Sharks (white fin, grey but also leopard and tiger), barracudas and carangidae will be travel 'companions', whereas the barbecue on the beach will be an unforgettable experience. As well as passes, the dives will visit reefs and the various 'thilas' in all their majestic beauty, both during the day and in night-time dives or snorkelling. Departure from Kadeddhoo with another domestic flight to Male, before boarding the international flight.

## MALE' - LAAMU - HUVADHOO (Suvadiva) : 2 weeks

Departure from the Hulule/Male airport, two-week sailing through Male Sud, Felidhoon, Vattaru, Mulaku, Thaa and Laamu to the atoll of Huvadhoon (Suvadiva), which can only be reached with favourable weather conditions (mid-winter). The destinations included in this trip will satisfy all those wishing to visit remote places far from the more commercial Maldives.

Fun will be guaranteed for both snorkelers and divers (but fishing enthusiasts too), thanks to the beautiful and extremely diversified landscapes: passes, deserted islands, sandy strips of land, islands inhabited by friendly and spontaneous people, the possibility of trolling... all these elements will make for unforgettable memories.

On the last day departure from the national airport of Kadeddhoo for Male.
